

BRING YOUR OWN DEVICE

In 2015 Port Hacking High School successfully introduced a BYOD program into Years 7-10.

All students in Year 7 2019 will be required to have an approved device for the start of the school year. Attached is a list of suggested devices. Students use IPADS, Macbooks and Windows Laptops.

These devices can access the school's wifi network. This network does not allow access to Facebook, Instagram or other social media sites.

Windows software will be available for Year 7 students to download at no cost.

No student will be disadvantaged and the school can assist by providing a device to students who have financial difficulty.

The Port Hacking High School Website <http://www.porthackin-h.schools.nsw.edu.au/> has information available under the Parent Information tab.

More information can be obtained at the Port Hacking High School Moodle Page. You will find it in the Laptops N Stuff. The username is parent.parent and the password is parent.

More detailed information on this Department of Education and Communities policy can be accessed at <http://byodsandpit.weebly.com/>.

All parents and students are required to sign a student agreement.

There will be a brief presentation on Orientation Day.

Also included is the Port Hacking High School Student Agreement.

Could you and your son/daughter please sign this agreement and return it to school on Orientation Day.

Yours sincerely

Mr B Hugo
Principal

PORT HACKING HIGH SCHOOL

To Strive is to Achieve
