Year 9 Mentoring Program

The school provides a highly successful Mentor and Goal Setting program for the benefit of every student in Year 9. The program will take place during Weeks 4 and 5, Term 3 and will utilise the expertise of the Wellbeing and Careers team.

Each student will be asked to complete an individualised learning plan on CANVAS before meeting with their mentor. This, along with data from their Year 8 yearly report, will be used in a meeting between the student and their mentor to discuss and identify personal strengths and weaknesses. This discussion will assist each student to complete an individualised Education Plan with quantifiable, realistic and measurable goals.

The aim of the program is not only to assist students to identify future goals and provide strategies to enhance their learning at school, but also to provide support for students where required. The program will assist students to analyse and reflect on their current level of engagement and begin the setting of goals based on their pathways.

Yours sincerely

B Hugo
Principal
